

# Our Product Portfolio

## Manufacturing Solutions Across Multiple Industries

Raman Laaminators manufactures a comprehensive range of flexible packaging materials, medical packaging solutions, healthcare consumables, and industrial packaging products. Our solutions are designed to meet the demanding requirements of hospitals, pharmaceutical companies, FMCG brands, industrial manufacturers, and OEM partners with consistent quality and reliable supply.

## Our PRODUCT Lineup

### Flexible Laminated Packaging Solutions

Custom laminated pouches and rolls engineered for superior barrier protection, product freshness, and high-quality branding.

### Compostable Biohazard Waste Bags

Eco-friendly biomedical waste disposal bags manufactured for safe handling and compliant segregation of infectious waste.

### Laminated Kraft Paper Solutions

Durable laminated kraft paper designed for sustainable packaging, moisture resistance, and enhanced product protection.

### Sterile Blood Lancets

Precision-engineered, ETO-sterilized blood lancets designed for safe, comfortable, and reliable capillary blood sampling.

### Medical Sterilization Pouches & Rolls

Medical-grade sterilization pouches and rolls designed to maintain sterility for surgical instruments and healthcare devices.

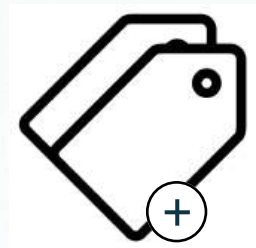

### Surface Protection Films

Protective films engineered to safeguard finished surfaces against scratches, dust, and damage during storage and transportation.

### Industrial LDPE Film Rolls

High-quality LDPE film rolls manufactured for industrial packaging, protective wrapping, and customized converting applications.

### OEM & Private Label Solutions

End-to-end contract manufacturing and private-label packaging solutions customized for your brand.
